NO LICENSE FOR SMALL GROCER

Wilson Issues Food Control Proclamation—Meat, Milk, Fruit and Vegetables Included.

Washington, Oct. 12.—Government control of foodstuffs is extended to take in virtually all the essential articles of diet by a proclamation issued by President Wilson directing the food administration to license after Nov. 1 the manufacture, storage, importation and distribution of some twenty prime commodities. Many small dealers are exempted as are farmers, who were especially exempted in the food control law.

The move was forecast in a state-

ment by the food administration declaring it was necessary to prevent unreasonable profits and to stop hoarding and speculation.

After quoting the food control act under president's proclamation says: "It is essential in order to carry into effect the purposes of said act to license the importation, manufacture, storage and distribution of necessities to the extent hereinafter specified."

"All persons, firms, corporations and associations engaged in the business either of (1) operating cold storage warehouses (a) cold storage warehouse for the purpose of this proclamation being defined as any place artificially or mechanically cooled to or below a temperature of 45 degrees Fahrenheit in which food products are placed and held for 30 days or more. (2) operating elevators, warehouses or other places for storage of corn, oats, barley, beans, rye, cottonseed, cottonseed meal, cottonseed cakes or peanut meal or (3) import-

ing, manufacturing (including milling, making or packing) or distributing (including buying or selling) any of the following commodities:

- "Wheat, wheat flour, rye or rye flour.
- "Barley, or barley flour.
- "Oats, oatmeal or rolled oats.
- "Corn, corn grits, corn meal, hominy, corn flour, starch from corn, corn oil, corn syrup or glucose.
- "Dried beans, peas or dried peas.
- "Cottonseed, cottonseed oil, cottonseed cake or cottonseed meal.
- "Peanut oil or peanut meal.
- "Soy bean oil, soy bean meal, palm oil or corpa oil.
- "Oleomargarine, lard or lard substitutes, oleo oils or cooking fats.
- "Milk, butter or cheese.
- "Condensed, powdered or evaporated milk.
- "Fresh, canned or cured beef, pork or mutton.
- "Poultry or eggs.
- "Fresh or frozen fish.
- "Fresh fruits or vegetables.
- "Canned peas, dried beans, tomatoes, corn, salmon or sardines.
- "Dried prunes, apples, peaches or raisins.
- "Sugar, syrups or molasses."

Exception are made of farmers, gardeners and small dealers in cold storage commodities.

Rob the Players.

Sneak thieves are making a good living off the high school football players these days.

Several times within the past few weeks they have entered the dressing rooms at Bosse field and taken sums of money, ranging from 25 cents to \$5 from the players' street clothes while the men were on the field at practice.—Evansville Courier.

Date For Hearing.

Pembroke's application for a lower freight rate on coal will be heard at Louisville on October 29 by the Railroad Commission. Ira D. Smith will represent Pembroke.

Gov. Stanley has appointed H. Q. Grinter police Judge of Allensville.

THE DAWSON

Will Be the Name of Dawson Springs' Big New Hotel.

According to plans recently perfected, the South is to have an ideal all-year-round health resort, which in magnificence and elaborateness of refinement will equal, if not excel, any like resort on the American continent, if not in the world.

Dawson Springs, Kentucky, on the New Orleans Louisville line of the Illinois Central railroad, is the place where this large project is to be located. This town has been a popular health resort for many years, its chief attraction being its mineral springs, whose alkaline waters possess medicinal qualities, claimed by many prominent physicians to have characteristics identical with the waters of the famous Carlsbad springs, of Bohemia.

The prime factors of the new undertaking, which is already in progress, are a number of southern business men, prominent in banking and commercial circles, and Chicago and New York capitalists, who have incorporated The Dawson Hotel Corporation of America, with a capitalization of \$8,000,000. The president of the corporation is Theodore R. Troendle, of Hopkinsville, a capitalist well known throughout Kentucky and the South.

This corporation has acquired title to approximately 9,800 acres of land in and surrounding Dawson Springs. Eight hundred acres of this land will be converted into a park, its natural beauty to be enhanced by extensive landscape gardening, the creation of a 76-acre lake, 14 feet in depth, the laying out of two 18-hole golf boulevards are in progress of construction, together with bridge paths and trails, reaching all attractive points in the vicinity of the springs.

This fine park and its embellishment will constitute the setting of what is designed to be the most magnificent health and pleasure resort hotel in America. This hotel is to be known as the Dawson. It will con-

tain more than 1,100 rooms and will have ground floor dimensions of approximately 400x600 feet. It will be seven stories. Architect Walter W. Ahlschlager, of Chicago, designed the structure. The contract for completion of the building has been awarded to a leading nationally known construction company.

The Dawson will have many innovations, some entirely new in modern hotel practices. One feature unique and unusual, is that the kitchen will be located 250 feet away from the main building, in the second story of a "wing," large windows and skylights providing for its lighting "from the heavens" during the day and allowing for light rays from every point of the compass. The kitchen will be a model as to perfect ventilation, and will be furnished in marble and tile from floor to ceiling.

Every living room and bed room will be a front room, there being no courts nor "rear" ends to the hotel. Every room will have its private bath. The ground floor plans provide for "plenty of elbow room," a large foyer, immediately off from which is the Palm room, 90x100 feet, a dining room and a ball room for accommodations for 500 couples, breakfast room, private dining rooms, etc. There will be elaborate separate bath houses, a large garage and other accommodations.

The Dawson will be under the direct management of a New York hotel manager of international repute, who is financially interested in the corporation and one of its managing directors.

The Illinois Central railroad is now building a line between Providence and Dawson Springs, which will shorten the distance between Chicago and other northern points to Dawson Springs. This road will also reach extensive coal lands which are also owned by the hotel corporation.—Princeton Leader.

Visit the Gray And Blue Reunion

At the National Military Park VICKSBURG, OCT. 11-19

The Vicksburg encampment of veterans on the above dates is under the direct management of the United States Government, and commemorates the siege and defense of Vicksburg in 1863 by the valiant soldiers of both armies. It will be worth seeing in connection with the Park itself, and the

Many Attractions of the City of Vicksburg and the entertainment it has to offer the visitor on that special occasion will be most enjoyable.

Buy your ticket via the ILLINOIS CENTRAL. G. H. BOWER, General Passenger Agent, Memphis, Tenn.

New York won the third and fourth games over Chicago, leaving the series 2 and 2 up to yesterday. Six and perhaps seven games will have to be played.

MIDNIGHT HOURS BRING NO ALARM OF DREAD CROUP

This Sturdy Youngster Keeps a "Bodyguard" on Hand.

POSTS GUARD AT BEDTIME. And Mother Sleeps Without Fear of Hearing that Awful Brassy Choking Cough.

This fine boy is Master Charles Kern, the son of Mr. and Mrs. R. E. Hurley, 1026 Madison St., LaPorte, Ind. Charles has a little "Bodyguard" who lives in a little blue jar, and protects him against croup, colds, sore throat, bronchitis—in fact all kinds of cold troubles.

The name of this "Bodyguard" is Vick's VapoRub Salve, and the best thing about him is that he doesn't have to be swallowed. To "post the guard," Charles' mother just applies VapoRub externally and covers with a warm flannel cloth. Quick relief comes by absorption through the skin and by inhalation as a vapor.

"We always try to keep VapoRub in the house," writes Mrs. Hurley, "as the children are very susceptible to croup. By rubbing it on their throats and chests they are soon relieved. My husband and I used VapoRub when we had pleurisy and our pains went almost immediately."

Three sizes, 25c, 50c, \$1.00. Keep a little Vick's VapoRub in your home.

VICK'S VAPORUB SALVE

All to Be Examined.

Announcement that the 7,000,000 registered men not called in the first draft will be ordered up for examination immediately, is expected to follow a conference between Secretary of War Baker and Provost Marshal General Crowder. The call has been definitely decided upon.

This does not mean that the men found eligible will be called from their homes until a date for the second draft is announced. The actual mobilization probably will not take place until March or April.

It is also indicated that instead of calling out 500,000 or more men—the limit allowed under the existing law of 1,000,000 with the necessary reserve the next draft will be for hardly more than 100,000, and will be followed by a series of similar "small drafts," designed to refill the cantonments as rapidly as the forces now under training there are moved away. In order to expedite the training of the men, regulars and the national guard are to be sent to the national army camps to assist in the work.
